—¿Pero la presencia de Tortilete nos proporciona información sobre la conducta de los adolecentes que se están convirtiendo en la Guardia del Estado, ¿no es así?

—Sí, pero sólo en una medida muy limitada, porque el comportamiento de los adolescentes de Tortilete es el resultado de una serie de circunstancias que no se repiten en otros lugares. En Tortilete, la presencia de la Guardia del Estado es una consecuencia directa de la guerra civil, y los adolescentes se han convertido en soldados porque no tienen otra opción. 1. The first of these is the *problem of the origin of the universe*. This is a question which has been asked since the beginning of time. The ancient Greeks, the Romans, the Christians, the Muslims, and the Hindus all had their own theories about the origin of the universe. The modern scientists have also tried to answer this question, but they have not yet found a satisfactory answer. The most popular theory at present is the *big bang theory*, which says that the universe began with a huge explosion of matter and energy. This theory is supported by many observations, but it still has many unanswered questions. For example, what caused the big bang? How did the universe expand from a single point? These are some of the questions that scientists are still trying to answer.

the 1970s, the group, then called the "Black Panther Party for Self-Defense," was a radical Black nationalist organization that sought to achieve Black liberation through armed struggle. The group's ideology was based on the teachings of Malcolm X and the Black Panther Party's founder, Huey P. Newton. The group's members were known for their militant actions, including the 1967 "Black Panther Party for Self-Defense" (BPP) demonstration in Oakland, California, which resulted in the deaths of several people. The group's actions were widely condemned by the mainstream media and the government, and the group was eventually disbanded in the early 1970s. However, the group's legacy continues to influence the Black community and the broader American society.
